

THE  
PLETTENBERG  
PLETTENBERG BAY

**WINE LIST**

Welcome to SeaFood at the Plettenberg

Our award-winning wine list is a work-in-progress and hopefully it will never be complete, as we always aim to better our selection. As we are located on the beautiful South Cape Coast, we want to reflect our location in our selection of wines. Our wine list will focus on wines coming from Coastal areas and vineyards that have strong coastal influences, but also showcase the best of what other winemaking regions have to offer. These wines are selected solely for your tasting pleasure. The wine descriptions below each wine are those of the winemakers' and some of our own.

Should you wish to choose your bottle of wine directly from our Wine Cellar, please do not hesitate to ask a senior member of Staff, who will be delighted to assist you in your choice of wine and offer you the option of decanting your selection.

We offer a selection of still and sparkling wines served 'by the glass' and you can be assured that any of these are served fresh from the bottle. This is made possible by using the latest wine preservation technology. This innovative technology can perfectly preserve open bottles of still and sparkling wine with no loss of flavour, bouquet or sparkle, ensuring you the finest glass of wine every time.

We hope that our wine list is an enjoyable and informative read and trust that you will experience a genuine wine adventure that will elevate your whole dining experience to the next level.

## THE COAST AND ITS WINE REGIONS:

### CONSTANTIA TO PLETTENBERG BAY

The Hemel-en-Aarde Valley is the ideal location for the fussy Pinot Noir, Sauvignon Blanc and Chardonnay due to the cool maritime climate and the right soil composition.

The Onrus River winds its way through the valley, where one of the youngest but fastest growing wine routes in South Africa is already establishing a name with its Pinot Noir and Chardonnay cultivars. The three wards: Hemel-en-Aarde Valley, Upper Hemel-en-Aarde Valley and Hemel-en-Aarde Ridge are well known for their Pinot Noirs and Chardonnays. Innovative blends and mineral Sauvignon Blancs complement the range.

The Elgin Valley, between Cape Town and Hermanus forms a vital part of the apple producing industry in South Africa, but is now also home to a thriving wine industry. The area is characterised by small family farms, world class wines and top young wine makers.

This small valley, one of the coolest wine growing areas along South Africa's south coast is situated some 70 kilometres east of Cape Town, developing a reputation for outstanding wines, characterized by their mineral undertones and complimented by good natural acidity, displaying an elegance that has its origins in our uniquely cool terroir.

Constantia Valley, the oldest wine region of South Africa, is known more for its whites such as Sauvignon, Semillon and Muscat. Reds such as Merlot, Cabernet, Syrah and Nebbiolo also perform well, depending on the location of the vineyards. Constantia receives over 1000mm of rain a year making irrigation unnecessary. The warmer north facing slopes of Constantia also produce elegant Merlot, Cabernet and Nebbiolo.

Wines from the nearby Cape Point region have also been included. Though there are similarities in climate with the Constantia region, such as the cooler sea breezes from the False Bay coast line, which benefits the slow ripening process needed for sauvignons and certain white wine blends, Cape Point is a relatively new wine producing region.

## THE WINES OF PLETTENBERG BAY
